HOW TO ENTER:

Every entry has two parts. One, a copy of this form with the category and submission info filled out FOR EVERY ENTRY. And two, a CD containing required information.

A. Burn one disk with the following on it:

Part I—A Microsoft Word document featuring the following information:

1. Name of project, the end-user client, the company that designed, and the company that fabricated.
2. A 500-word description of the objective and any challenges, plus interesting aspects of the project.
3. What space was this designed for? Trade show? Event? Retail? Tell us.
4. What size does the design encompass?
5. Describe any notable features, attributes, and design creativity in a 1,000-word (max) overall description of the structure. Give the judges a taste of what was different, new, interesting, difficult, special.

Part II—Images

You must have at least one 3D image (either a CAD rendering or a photo of a model) to enter this award competition.

Optional. You may include any of the following:
1. Scans of sketches
2. Scans of original assignment sheet
3. Scans of hand drawings

Required. You must submit at least two of the following:
1. 3D CAD rendering
2. Architectural blueprints
3. Photographs of models

B. Fill out the Entry ID form on left and include with your disk.
